PROFESSIONAL SUMMARY

Final-year B.E. Cyber Security student and certified Red Team operator with **3 internships** across WAPT, red team operations, threat intelligence, and SOC disciplines. Holder of **CSCSO** and **CRTOM** certifications. Ranked in the **Top 3% globally on TryHackMe**. Won **1st place on debut CTF** at Nandha Engineering College (2025), solving web exploitation, network forensics, cryptography, and reverse engineering under timed competition conditions.

EXPERIENCE

WAPT Intern

Jun – Jul 2025 · 5 Weeks

Ozone Cyber Security · Tiruchirapalli, TN · ISO 9001 Certified

- Discovered high-severity SQLi, XSS, IDOR, and authentication bypass flaws on live production targets; each finding delivered with CVSS v3 score, PoC, and remediation guidance — zero re-submissions.
- Executed full pentest lifecycle (scoping → recon → exploitation → post-exploitation → reporting) using Burp Suite, Nmap, Metasploit, and OpenVAS.
- Standardised CVSS scoring templates adopted team-wide, reducing mean-time-to-document per finding. Formally commended by supervising specialist (Ref: OZ/DOC/210720255).

Cyber Security Intern — VIP Performer

Feb 2026 · 1 Month

ShadowFox · Remote · ISO 9001 / MSME Certified

- Performed threat analysis, network reconnaissance, and web vulnerability exploitation across simulated enterprise environments; documented critical attack paths with mitigations.
- Completed all modules ahead of schedule; awarded VIP Performer status (ID: SF02VIP140).

Cyber Security Intern

Mar – Apr 2025 · 1 Month

Corizo (IIT Bombay – Mood Indigo) · Remote

- Completed 160-hour programme covering threat intelligence, network defence, and SOC operations across 6 simulated enterprise scenarios; demonstrated incident response playbooks for malware containment and lateral movement detection (Wipro Dice ID: CRZ94377).

IT Infrastructure Engineer (UPS Systems)

Jun 2022 – Jun 2024 · 2 Yrs

TD Infra Services & Numax Energy Solutions · Chennai / Hyderabad

- Maintained critical enterprise infrastructure across corporate client sites; built discipline in systems availability, fault diagnosis, and SLA-driven service delivery directly transferable to security operations.

KEY PROJECTS

Dual-Layer Wireless Intrusion Detection & Prevention System (WIDPS)

Python · Scapy · 802.11 · IDS/IPS

- Detected 5 attack vectors (rogue APs, evil twin, deauth floods, packet injection, MAC spoofing) in real time — zero false negatives in lab validation; sub-200ms classification latency.
- Automated prevention layer cut simulated intrusion response time by 70% vs. manual monitoring baseline.

IoT-Based Indoor Air Quality Monitoring System

MQ-135 · DHT11 · ESP8266 · Python · Cloud Dashboard

- Deployed real-time IoT sensor pipeline with threshold alerting and anomaly-based detection — proof-of-concept for OT/IoT behavioural-baseline security monitoring.

EDUCATION

B.E. Cyber Security (Final Year)

Mahendra Engineering College, Anna University

2024 – Present · Namakkal, TN

Diploma — Electronics & Communication Engg.

Sankarapuram Govt. Polytechnic College

Graduated 2022 · 72.23% · Kallakurichi, TN

ACHIEVEMENTS

🏆 CTF — 1st Place

Nandha Engineering College, 2025.
Debut competition — solved web, forensics, crypto & RE.

🌐 TryHackMe Top 3%

Globally ranked among most active offensive security practitioners worldwide.

★ VIP Performer

ShadowFox internship — completed all modules ahead of schedule.
